Office Action Summary	Application No. 10/730,354	Applicant(s) BROOKS, JEFFREY S.	
	Examiner Marie Patterson	Art Unit 3728	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on _____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____.

Claim Rejections - 35 USC § 112

1. Claims 2, 8, and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 2, 8, and 14 the phrase "corresponds to the width of the lower end of the medial malleolus..." are vague and indefinite because they define the pads in reference to an undefined element, i.e. the wearers' foot.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 13-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wilkerson (4590932).

4. Claims 1-3, 7-9, and 13-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Joubert (6442875) or Bernhard (4726126).

5. Claims 1-4, 7-10, and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Kleylein (EPA 0350517).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3728

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 4-6, 10-12, and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kleylein.

Kleylein shows a boot with a sole and upper with U-shaped pads (16) and filler material (19) substantially as claimed except for the exact hardnesses of the materials. It has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416. Also, it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ 233. It would have been obvious to select materials with the hardness values as claimed to provide the desired support and comfort needed for a particular foot, activity, rehabilitation, etc..

8. Claims 4-6, 10-12, and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Joubert (6442875) or Bernhard (4726126) in view of either Kleylein or Dalvy (5924218).

Either Joubert (6442875) or Bernhard (4726126) shows a boot with U-shaped pads (50 and 52 or 6) located between a liner and an outer shell substantially as claimed except for providing filling material around the pads. Either Kleylein or Dalvy teaches providing conventional soft filling material (19 or 13) around pads in a shoe. It would have been obvious to providing conventional filling material as taught by either Kleylein or Dalvy in the boot of either Joubert or Bernhard to increase comfort and to keep the padding in correct position. In reference to the specific hardnesses, It has been held to

be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416. Also, it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ 233.
